

AURUM CONVERSATION KNOWLEDGE BASE V3

SECTION 1: COMPANY OVERVIEW

Knowledge Item 001

User Intent: User wants a quick understanding of what Aurum is.

Possible User Messages: What is Aurum? Tell me about Aurum. Explain Aurum. What does Aurum do? Can you tell me about the company?

Short Answer: Aurum presents itself as a fintech ecosystem focused on AI-powered trading solutions, digital asset management, and digital financial services.

Expanded Answer: According to the Aurum presentation, the company combines AI trading products, fintech services, digital asset tools, and banking solutions into a single ecosystem. The goal is to provide users with technology-driven financial products while simplifying access to digital asset opportunities.

Follow-up Questions: Would you like to learn about the company, products, or team? Are you new to Aurum or have you already attended a presentation? Which part interests you most?

Suggested Next Action: Company Overview PDF, Introduction Video.

Related Topics: Team, EX-AI Bot, NeoBank, Deposit Plans.

Knowledge Item 002

User Intent: User wants to know if Aurum is a cryptocurrency.

Possible User Messages: Is Aurum a coin? Is Aurum a crypto token? Can I buy Aurum? Is Aurum a cryptocurrency?

Short Answer: No. Aurum describes itself as a fintech ecosystem and service platform rather than a cryptocurrency.

Expanded Answer: The presentation focuses on products and services such as AI trading systems, NeoBank, digital asset management tools, and fintech solutions. It does not position Aurum itself as a cryptocurrency token.

Follow-up Questions: Would you like to learn about Aurum's products? Are you interested in the AI trading solutions? Would you like a quick company overview?

Suggested Next Action: Offer Product Overview.

Related Topics: EX-AI Bot, NeoBank, Zeus AI Bot.

SECTION 2: TEAM & LEADERSHIP

Knowledge Item 003

User Intent: User wants to know who founded Aurum.

Possible User Messages: Who owns Aurum? Who is the founder? Who started the company? Who is Bryan Benson?

Short Answer: The presentation identifies Bryan Benson as CEO and one of the key leaders behind Aurum.

Expanded Answer: According to the presentation, Bryan Benson has extensive experience in fintech, blockchain, and digital asset industries. He is presented as the CEO leading Aurum's strategy and growth initiatives.

Follow-up Questions: Would you like to learn more about the leadership team? Would you like a company overview? Would you like to see the founder presentation?

Suggested Next Action: Offer Founder Presentation.

Related Topics: Ahmad Zen, Gulnara Kniazheva, Al Rizqi.

SECTION 3: EX-AI BOT

Knowledge Item 004

User Intent: User wants to understand EX-AI Bot.

Possible User Messages: What is EX-AI Bot? How does EX-AI Bot work? Explain EX-AI. Tell me about the trading bot.

Short Answer: EX-AI Bot is Aurum's automated AI trading solution designed to analyze market opportunities and execute trades automatically.

Expanded Answer: The presentation describes EX-AI Bot as an AI-powered trading system that continuously monitors market conditions, identifies trading opportunities, applies risk management principles, and executes trades automatically. It is presented as operating 24/7.

Follow-up Questions: Would you like to learn about plans? Would you like to see profit examples? Would you like to understand risk management?

Suggested Next Action: Show EX-AI Bot Overview PDF.

Related Topics: Deposit Plans, Withdrawals, EX-AI Pro, Zeus AI Bot.

Knowledge Item 005

User Intent: User wants to know the minimum amount required.

Possible User Messages: How much do I need to start? What's the minimum deposit? Can I start small?

Short Answer: According to the presentation, the minimum entry level starts at 100 USDT.

Expanded Answer: The Basic Plan begins at 100 USDT. Additional plans are available with higher deposit ranges and different participation structures.

Follow-up Questions: Would you like to see all plans? Would you like me to explain the Basic Plan?

Would you like to understand how withdrawals work?

Suggested Next Action: Show Deposit Plans.

Related Topics: Basic Plan, Withdrawals, Profit Examples.

SECTION 4: NEOBANK

Knowledge Item 006

User Intent: User wants to understand NeoBank.

Possible User Messages: What is NeoBank? Tell me about NeoBank. What can NeoBank do?

Short Answer: NeoBank is Aurum's digital banking platform designed to operate through Telegram and provide financial management features.

Expanded Answer: According to the presentation, NeoBank includes wallet management, transaction tracking, card management, banking services, and AI bot management capabilities. It is positioned as a central financial interface within the Aurum ecosystem.

Follow-up Questions: Would you like to learn about wallet management? Would you like to understand the Telegram integration? Would you like to learn about AI Bot management?

Suggested Next Action: Show NeoBank Overview.

Related Topics: Wallets, Cards, EX-AI Bot, Zeus AI Bot.

SECTION 5: RISK & COMPLIANCE

Knowledge Item 007

User Intent: User wants to know if profits are guaranteed.

Possible User Messages: Is profit guaranteed? Can I lose money? Is this risk-free?

Short Answer: No. The presentation clearly states that profitability involves risk.

Expanded Answer: The presentation explains that market conditions, personal decisions, and other factors affect outcomes. Users are encouraged to conduct their own research and never commit funds they cannot afford to lose.

Follow-up Questions: Would you like to understand the risk disclaimer? Would you like to review the company presentation? Would you like to learn how the products work?

Suggested Next Action: Show Risk Disclaimer PDF.

Related Topics: Profit Examples, Withdrawals, Due Diligence.
